ASLI AYŞE ŞAHİN

Full Stack Developer

📞 +905055940477 @ asli.ayse.sahin.404@gmail.com 🔗 **Linkedin** 🔗 **Website** 📍 Kayseri, Turkey

EXPERIENCE

Intern, Software Developer

KolayCAR

📅 06/2025 - 07/2025   📍 Kayseri, Turkey

- Working on a .NET rent-a-car project that delivers custom responsive websites
- Refactored and extended existing full-stack components, enhancing responsiveness and code clarity across both C# and JavaScript layers
- Responsible for identifying and fixing bugs to improve stability and performance
- Enhancing the existing feature set and collaborating with the team to streamline cross-component workflows
- Supporting both the logic and UI layers in an integrated solution using ASP.NET MVC

Intern, Software Developer

SA Yazılım

📅 02/2025 - 06/2025   📍 Kayseri, Turkey

- Collaborated with a team to design and develop a courier app in Flutter, delivering a full MVP in under two months
- Developed 3+ RESTful APIs for backend integration
- Engineered database structures in MSSQL for an order management system, enabling real-time data updates
- Participated in daily agile ceremonies, improving workflow transparency and delivery speed
- Fixed 20+ issues prior to release
- Coordinated with supervisors, 3 teammates and 1 fellow intern to deliver a smooth product launch

Part-Time .NET Developer

KolayCAR

📅 01/2024 - 03/2024   📍 Kayseri, Turkey

- Developed backend APIs powering a rent-a-car system used by over 100 internal users, ensuring reliable data exchange
- Designed secure database schemas and applied business logic to ensure system reliability, resulting in 90% uptime during pilot
- Supported mobile team with API integration, enhancing data sync and reducing data latency
- Participated in sprint planning and code review sessions with senior developers
- Investigated and resolved reported bugs

Intern, Mobile Developer

KolayCAR

📅 07/2023 - 08/2023   📍 Kayseri, Turkey

- Implemented and tested features for a React Native rent-a-car app deployed on 3 tablet models
- Enhanced app UI/UX based on feedback from 5+ users, increasing satisfaction
- Assisted with app deployment and functional testing on 5+ device types
- Collaborated with a team of 3 to resolve 20+ cross-platform issues pre-launch
- Documented code and 10+ API endpoints for future maintenance and team onboarding
- Gathered and analyzed user feedback during pilot testing phases

EDUCATION

Bachelor of Science in Computer Engineering

Abdullah Gül University

📅 07/2025   📍 Kayseri, Turkey

- Bachelor of Science in Computer
- Engineering
- Abdullah Gul University
- Kayseri, Turkey

SUMMARY

Junior Software Developer with a BSc in Computer Engineering (July 2025) and multiple hands-on experiences in real-world projects. Delivered production-ready web and mobile applications, built RESTful APIs, and collaborated with agile teams. Proficient in full-stack development using .NET, React, Flutter, and SQL. Experienced in identifying issues, debugging code, and delivering work on time. Fluent in English and Turkish.
