WORK EXPERIENCE

Qaracter (Client: Santander Bank) (Málaga, Spain)

Junior Developer — Jan 2026 - Jan 2027

- Designed, developed, and maintained full-stack enterprise features for Santander Bank utilizing Spring Boot for scalable backend microservices and modern web frameworks for the frontend.
- Collaborated closely with cross-functional teams in an Agile environment, leveraging Jira and Confluence for sprint tracking, task estimation, and system documentation.
- Executed critical production platform releases and deployment workflows, ensuring zero-downtime integration and high application availability.

KolayCAR (Kayseri, Turkey)

Intern, Software Developer — Jun 2025 - July 2025

- Optimized full-stack C#/.NET features and resolved bugs, boosting platform stability by 25%.

SA Yazılım (Kayseri, Turkey)

Intern, Software Developer — Feb 2025 - Jun 2025

- Developed a full-stack Flutter MVP courier app with SQL Server databases and REST APIs within an 8-week sprint cycle.

KolayCAR (Kayseri, Turkey)

Part-Time .NET Developer — Jan 2024 - Mar 2024

- Built backend APIs serving 100+ internal users, improving system uptime to 90% and reducing latency by 30%.

Intern, Mobile Application Developer — Jul 2023 - Aug 2023

- Built and tested cross-platform React Native features for tablet deployment, resolving 20+ UI/UX issues.

EDUCATION

Abdullah Gul University

Bachelor of Science in Computer Engineering — Mar 2025

PROJECT

Ping: Real-Time Chat Application | React Native, PostgreSQL, Firebase Auth, Tailwind CSS

- Engineered a responsive cross-platform messaging application featuring secure authentication and low-latency real-time synchronization.

Pixie: AI-Powered Photo Editor | Flutter

- Developed a mobile image editing interface integrating real-time canvas filters and local caching utilities.
